

FIELDBUS 101

An Abridgment of *FOUNDATION™ Fieldbus Fundamentals*

Intended Audience: Managers, engineers, designers, and technicians taking a first-look at FOUNDATION™ Fieldbus technology

Course Format: Seminar style

Course Length: Half-day

Prerequisites: None

Materials: BusCorp Learning Modules and on-screen presentations

Number of Modules: Five (5) modules are included in the BusCorp Learning Module Package

Module Titles: **BLM-501 – About the Fieldbus Foundation**

Overview of the Foundation, its members and featured products

BLM-502 – FOUNDATION™ Fieldbus Technology Explained

Origins of Fieldbus – its features, benefits, and sample applications

BLM-503 – FOUNDATION™ Fieldbus H1 Physical Layer

Components comprising the H1 device network

BLM-509 – The Fieldbus Macrocycle

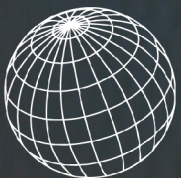

Applying, scheduling, and executing fieldbus control strategies

BLM-510 – Fieldbus High-Availability Systems

Inherent functions and features for robust and reliable fieldbus networks

Course Description This interactive seminar is customizable to the needs of the audience ranging from a half-day to a full day in length. With a baseline of several topics, organizers can select from additional titles to customize the learning experience for their personnel. Taught by an industry leader in FOUNDATION™ Fieldbus technology and its implementation, participants will be free to ask project-specific or general questions relative to capital expenditures, operating expenditures, system selection, technology benefits and best practices.

Avoid any unforeseen pitfalls by obtaining training and know-how from the world-class leader in Fieldbus training and consulting.
